Enabling an Intelligent Planet

The Features and Applications of WISE-PaaS/ DeviceOn

Chad Shih

Engineering Manager

Advantech North America

Device Lifecycle Management

Onboard, Configure, Monitor, Update, Retire

Device Onboard & Registration

- ✓ Zero-touch Onboarding
- ✓ Batch Import, Provisioning & Configuration
- ✓ Device Migrate, Transfer, Replace, and Retire

Data Acquisition & Visualizer

- ✓ Device Real-time & Historical Data
- ✓ WISE-PaaS/Dashboard Built-In

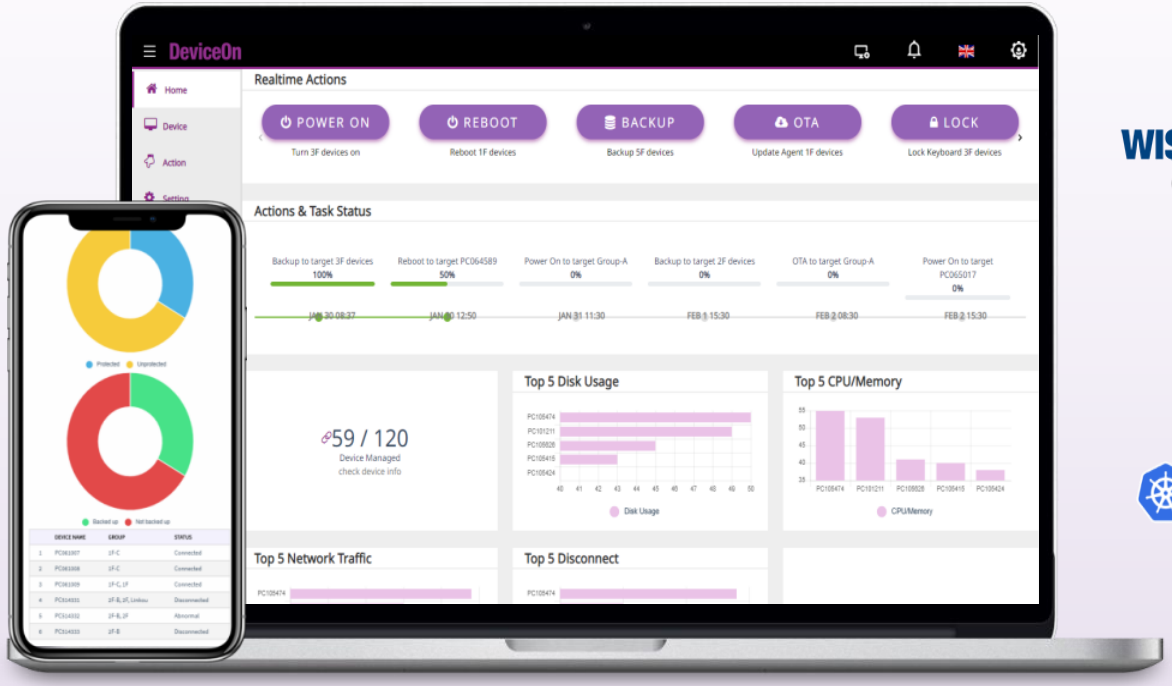
- ✓ Hardware & Software Monitoring
- ✓ Power Management
- ✓ Remote Trouble shooting
- ✓ Backup/Recovery, Protection
- ✓ Windows 10 Lockdown (Security & Protection)
- ✓ Device Anomaly Detection (Rule Engine)
- ✓ Notification & Alert

Device Monitoring & Diagnostics

- ✓ Software, Firmware & Configuration Update
- ✓ Advantech BIOS Update

Device SW Updates & Maintenance

Work Anywhere on Popular Platform and Service



Public Cloud Platform

WISE-PaaS/ EnSaaS
(Cloud Foundry Container)

Microsoft Azure
(AKS + Azure IoT Hub)

On-Premise Service

kubernetes
(Container PaaS)

VM
(Standalone Installation)

WISE-Stack
(EnSaaS Private Cloud)

DeviceOn US Strategy

- **Target Customer**
  - Equipment Builder: Hypertherm SHAPING POSSIBILITY BUCHER emhart glass ,etc.
  - DFSI: System integrator with IT resources
- **Focus Domain**
  - Industrial equipment builders…etc.
  - Industrial Automation, Energy(wind farm, solar, etc), Oil & Gas
- **Main Application**
  - Device Management & Monitoring : Bring rapid deployment tool that adds IT management capability to our OT customer.

Ready on WISE-PaaS Marketplace

WISE-PaaS/ DeviceOn

Empowers Edge Intelligence

Device Management
- Device Monitoring and Diagnostics
- Device Control & Updating

Data Management
- Data Acquisition and Storage
- Secure Data Access

Connectivity Service
- Device Connectivity
- Plug-n-Play Peripherals

DeviceOn.Dev

OTA
- Software & Firmware Updates
- Advantech BIOS Updates

Rule Engine
- Distributed Rule Monitoring
- Flexible Trigger and Action

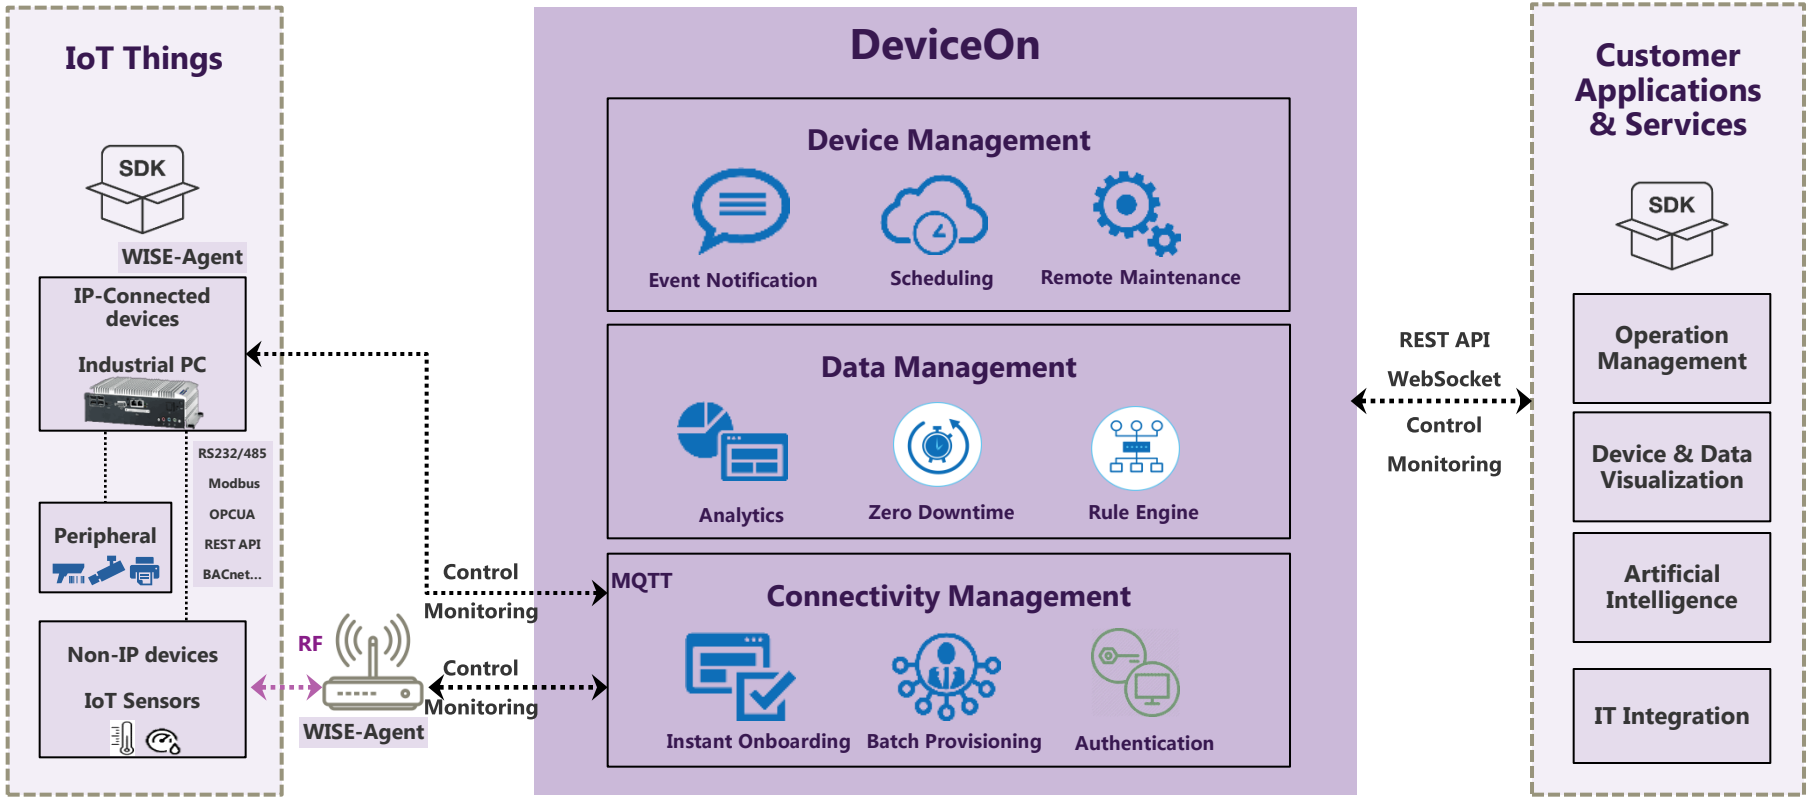
How Can DeviceOn's Flexible Architecture Help to Quickly Develop Your Application

Thomas Kastner
Director of WP.SENSE Europe
Advantech

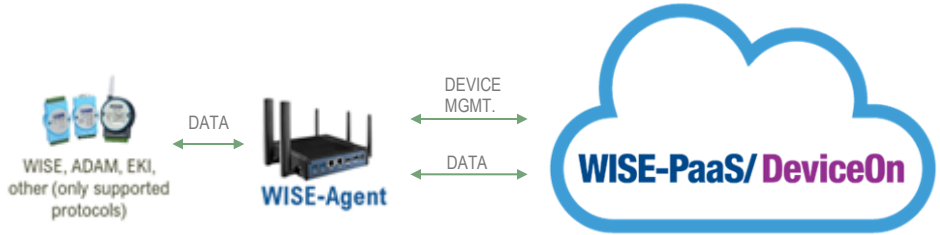
WP.SENSE
WISE-PaaS Solution Enabling Services

DeviceOn Architecture Overview

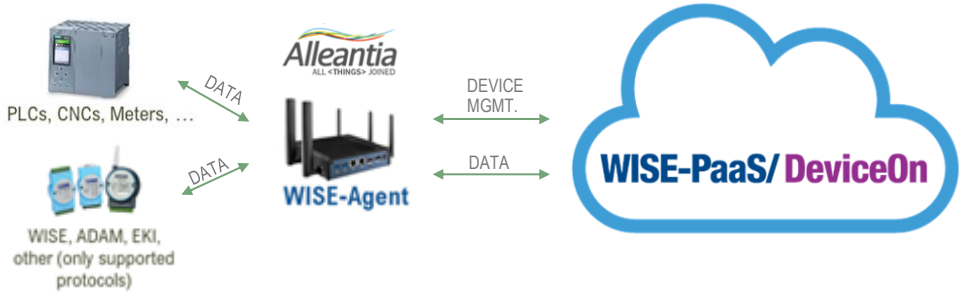


Versatile client connectivity through plugins

Advantech
out-of-the box
connectivity



Alleantia Software and
plugin add connectivity
to 5000+ devices



Turnkey industry 4.0
tablet with WISE-Agent
and Alleantia Software

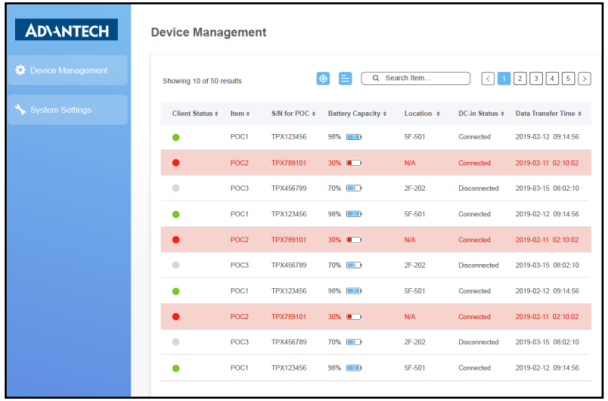
iprod

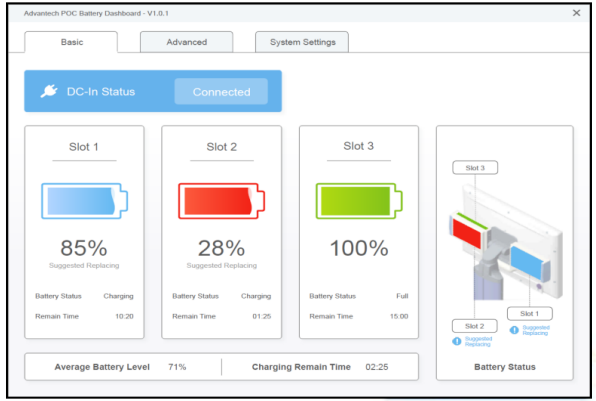
ADVANTECH

Server-side flexibility through RESTful APIs / Add-Ins

RESTful APIs for cloud services/apps or cloud-to-cloud connectivity

Custom User Interface as DeviceOn-Add-in on Advantech medical product





DeviceOn Flexibility Supports Europe's Strategy

- Building up a true ecosystem around DeviceOn
- Creating blueprints and SRPs for real use cases in focused verticals
- User-friendly reselling through existing channels
- Flexible connectivity options and services for 3rd party clouds or devices

Success Story | iprod

iProd MOP: as easy as an App.

The first 4.0 cloud Platform to create your Digital Workshop

Pier Luigi Zenevre
Chief Marketing Officer
iProd Srl.

iProd MOP: optimizes the 4 operational areas within manufacturing domain

1 Production Technology

iprod OFFICINA DIGITALE

MOP
MANUFACTURING OPTIMISATION PLATFORM

3 Production Planning & Monitoring

2 Purchasing Management of materials and tools

4 Preventive and Extraordinary Maintenance

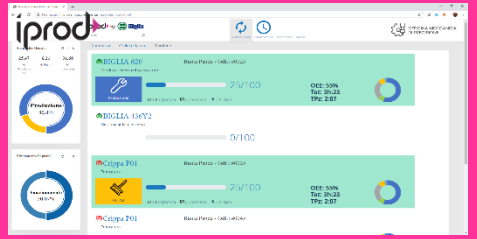
iprod

iProd IoT Tablet: a ready-to-use kit (IoT + Cloud)

FEATURES

Real time Production Planning
Online Asset Monitoring
Production KPIs
Technopedia
“Sharing” activities with customers

Digital Workshop



iProd Cloud Professional

UNIQUE VALUE PROPOSITION

Plug&Play IoT & Cloud
NO training, as easy as an APP
Effective already from a single interconnected machine
NO annual fees
Open for integration with third parties APP

LAN, WiFi or 4G

IoT Tablet 4.0 and operators

LAN

connected by Alleantia

IoT 4.0 Plug&Play

Machine tools and others production assets

iProd IoT Tablet: bundle of 4 Advantech's building blocks

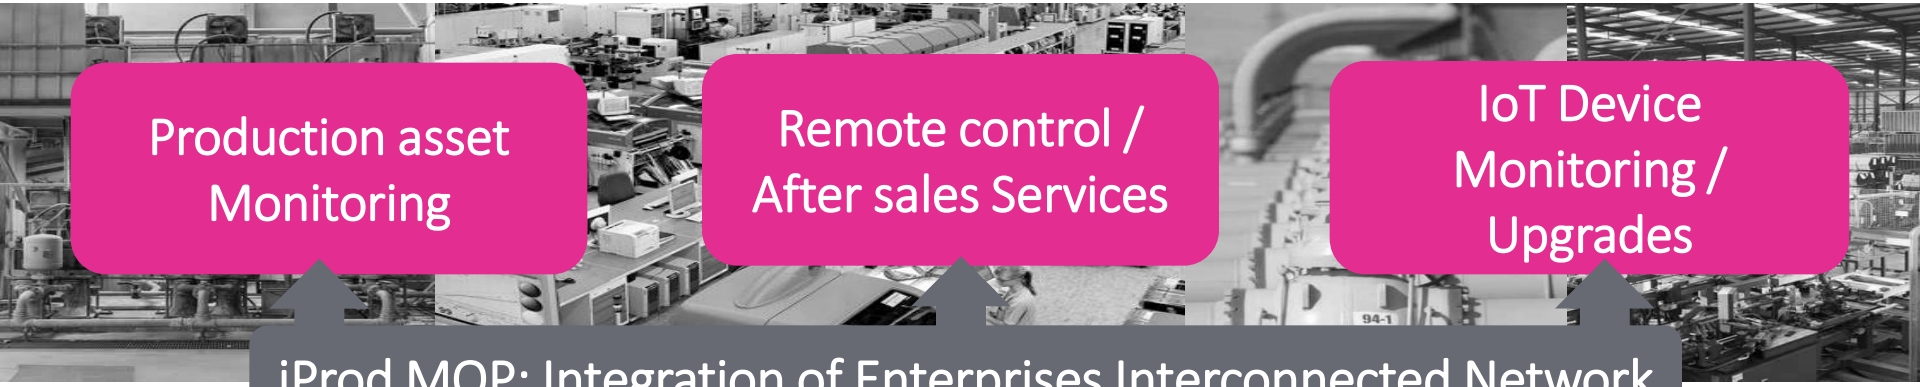
Reason of Partnering with Advantech WISE-PaaS:
To expand Digital Workshop through iProd MOP



Production asset Monitoring

Remote control / After sales Services

IoT Device Monitoring / Upgrades

iProd MOP: Integration of Enterprises Interconnected Network

Cross Selling / Upselling

Disintermediation

XaaS

iprod

Reasons of Partnering with Advantech WISE-PaaS

1. Strenghten Advantech partner Ecosystem by embedding solution packages (Alleantia)

2. Expanding upselling through Cloud Services (iProd Cloud Professional new packages)

3. Enabling new Business Models (AI and Contextual Market Place)

Thanks!

Success Story | NextWarehouse

The Reasons and Benefits of Partnering with Advantech

John Kuo
Chief Executive Officer
Nextwarehouse Inc.

The Challenge and Pain Point That We Are Facing

Integration of data process, data collection, remote diagnosis and monitoring for industrial critical application.

WISE-PaaS Functions used for Nextwarehouse's Power Monitor Solution

An Industrial PaaS Solution for the Edge to Cloud Service

An IoT Device Monitoring and Management Platform

A data analysis and visualization tool

Advantages Obtained from WISE-PaaS

- WISE-PaaS has complete platforms for different application use, only display the information you want.

- WISE-PaaS hosts platform itself, no longer from customer’s end.

The Support and Benefit of Joining WISE-PaaS Alliance

- Well constructive engineer support team and product management team for complete instruction.

- Advantech is a well-known industrial embedded, computing, and network product manufacturer. Nowadays, IIoT has become a fairly hot topic. More and more customers are seeking integration of data process and collection as well as remote diagnosis and monitoring capability with edge devices. With implementing WISE-PaaS to Advantech product, it increases the market visibility in IIoT.
