Three Months Ended March 31, 2016 and 2015 and  
Independent Auditors' Review Report**

## INDEPENDENT AUDITORS' REVIEW REPORT

The Board of Directors and Shareholders  
Advantech Co., Ltd.

We have reviewed the accompanying consolidated balance sheets of Advantech Co., Ltd. (the "Company") and its subsidiaries (collectively referred to as the "Group") as of March 31, 2016, December 31, 2015 and March 31, 2015, and the related consolidated statements of comprehensive income, changes in equity, and cash flows for the three months ended March 31, 2016 and 2015. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these consolidated financial statements based on our reviews. However, the financial statements of an associate, Axiomtek Co., Ltd., as of and for the three months ended March 31, 2016 and 2015 were reviewed by other independent CPAs. This investee's shares of the investments accounted for using the equity method were 1.38% (NT\$477,403 thousand) and 1.37% (NT\$441,772 thousand) of the Company's total consolidated assets as of March 31, 2016 and 2015, respectively. The Company's shares of its profits were 1.70% (NT\$27,743 thousand) and 1.58% (NT\$23,321 thousand) of the Company's consolidated pretax profits for the three months ended March 31, 2016 and 2015, respectively.

Except as stated in the following paragraph, we conducted our reviews in accordance with Statement of Auditing Standards No. 36 "Engagements to Review Financial Statements" issued by the Auditing Standards Committee of the Accounting Research and Development Foundation of the Republic of China. A review consists principally of applying analytical procedures to financial data and of making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China, the objective of which is the expression of an opinion regarding the consolidated financial statements taken as a whole. Accordingly, we do not express such an opinion.

As disclosed in Note 12, the financial statements of the Company's subsidiaries included in the consolidation for the three months ended March 31, 2016 and 2015 had not been reviewed, except those of significant subsidiaries. The total assets of the unreviewed subsidiaries were 17.48% (NT\$6,166,395 thousand) and 15.18% (NT\$4,906,845 thousand) of the Company's consolidated total assets as of March 31, 2016 and 2015, respectively. The total liabilities of the unreviewed subsidiaries were 19.95% (NT\$2,064,265 thousand) and 23.40% (NT\$2,079,597 thousand) of the Company's consolidated total liabilities as of March 31, 2016 and 2015, respectively. The comprehensive incomes of these subsidiaries were 25.01% (NT\$354,385 thousand) and 28.24% (NT\$248,670 thousand) of the Company's consolidated comprehensive incomes in the three months ended March 31, 2016 and 2015, respectively. Also, as stated in Note 13 to the consolidated financial statements, the investments accounted for using the equity method were NT\$26,760 thousand and NT\$27,323 thousand as of March 31, 2016 and 2015, respectively. The equities in earnings of the associates were losses of NT\$908 thousand and NT\$344 thousand of the Company's consolidated net income in the three months ended March 31, 2016 and 2015, respectively, and these investment amounts as well as additional disclosures in Note 32 "Information on Investees" were based on the investees' unreviewed financial statements for the same reporting periods as those of the Company.

Based on our reviews and the review reports of the other auditors, except for the effects of any adjustments as might have been determined to be necessary had the financial statements of the Company's subsidiaries described in the preceding paragraph been reviewed, we are not aware of any material modifications that should be made to the consolidated financial statements of Advantech Co., Ltd. and subsidiaries referred to above for them to be in conformity with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34 "Interim Financial Reporting" endorsed by the Financial Supervisory Commission (FSC) of the Republic of China.

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE MONTHS ENDED MARCH 31, 2016 AND 2015 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise) (Reviewed, Not Audited)**

---

### **1. GENERAL INFORMATION**

Advantech Co., Ltd. (the “Company”) is a listed company established in September 1981. It manufactures and sells embedded computing boards, industrial automation products, applied computers and industrial computers.

The Company’s shares have been listed on the Taiwan Stock Exchange since December 1999.

To improve the entire operating efficiency of Advantech Co., Ltd. (the “Company”) and its subsidiaries (collectively referred to as the “Group”), the Company’s board of directors resolved on June 30, 2009 to have a short-form merger with Advantech Investment and Management Service (AIMS). The effective merger date was July 30, 2009. As the survivor entity, the Company assumed all assets and liabilities of AIMS. On June 26, 2014, the Company’s board of directors resolved to have a whale-minnow merger with Netstar Technology Co., Ltd. (Netstar), an indirect 95.51%-owned subsidiary through a wholly-owned subsidiary, Advantech Corporate Investment. The effective merger date was July 27, 2014. As the survivor entity, the Company assumed all assets and liabilities of Netstar.

The functional currency of the Company is the New Taiwan dollar.

### **2. APPROVAL OF FINANCIAL STATEMENTS**

The consolidated financial statements were approved by the board of directors April 29, 2016.

### **3. APPLICATION OF NEW AND REVISED STANDARDS, AMENDMENTS AND INTERPRETATIONS**

The International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), Interpretations of IFRS (IFRIC), and Interpretations of IAS (SIC) in issue but not yet endorsed by the FSC.

The Group have not applied the following IFRS, IAS, IFRIC and SIC (collectively, the “IFRSs”) issued by the International Accounting Standards Board (IASB) but not yet endorsed by the FSC.

On March 10, 2016, the FSC announced the scope of IFRSs to be endorsed and will take effect from January 1, 2017. The scope includes all IFRSs that were issued by the IASB before January 1, 2016 and have effective dates on or before January 1, 2017, which means the scope excludes those that are not yet effective as of January 1, 2017 such as IFRS 9 “Financial Instruments” and IFRS 15 “Revenue from Contracts with Customers” and those with undetermined effective date. In addition, the FSC announced that the Group should apply IFRS 15 starting January 1, 2018. As of the date the consolidated financial statements were authorized for issue, the FSC has not announced the effective dates of other new, amended and revised standards and interpretations.

Amendment to IAS 39 “Novation of Derivatives and Continuation of Hedge Accounting”	January 1, 2014
IFRIC 21 “Levies”	January 1, 2014

Note 1: Unless stated otherwise, the above New IFRSs are effective for annual periods beginning on or after their respective effective dates.

Note 2: The amendment to IFRS 2 applies to share-based payment transactions with grant date on or after July 1, 2014; the amendment to IFRS 3 applies to business combinations with acquisition date on or after July 1, 2014; the amendment to IFRS 13 is effective immediately; the remaining amendments are effective for annual periods beginning on or after July 1, 2014.

Note 3: The amendment to IFRS 5 is applied prospectively to changes in a method of disposal that occur in annual periods beginning on or after January 1, 2016; the remaining amendments are effective for annual periods beginning on or after January 1, 2016.

The initial application of the above New IFRSs, whenever applied, would not have any material impact on the Group's accounting policies, except for the following:

a. IFRS 9 "Financial Instruments"

Recognition and measurement of financial assets

With regards to financial assets, all recognized financial assets that are within the scope of IAS 39 "Financial Instruments: Recognition and Measurement" are subsequently measured at amortized cost or fair value. Under IFRS 9, the requirement for the classification of financial assets is stated below.

For the Group's debt instruments that have contractual cash flows that are solely payments of principal and interest on the principal amount outstanding, their classification and measurement are as follows:

- 1) For debt instruments, if they are held within a business model whose objective is to collect the contractual cash flows, the financial assets are measured at amortized cost and are assessed for impairment continuously with impairment loss recognized in profit or loss, if any. Interest revenue is recognized in profit or loss by using the effective interest method;
- 2) For debt instruments, if they are held within a business model whose objective is achieved by both the collecting of contractual cash flows and the selling of financial assets, the financial assets are measured at fair value through other comprehensive income (FVTOCI) and are assessed for impairment. Interest revenue is recognized in profit or loss by using the effective interest method, and other gain or loss shall be recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses. When the debt instruments are derecognized or reclassified, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss.

Except for above, all other financial assets are measured at fair value through profit or loss. However, the Group may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognized in profit or loss. No subsequent impairment assessment is required, and the cumulative gain or loss previously recognized in other comprehensive income cannot be reclassified from equity to profit or loss.

The impairment of financial assets

IFRS 9 requires that impairment loss on financial assets is recognized by using the "Expected Credit Losses Model". The credit loss allowance is required for financial assets measured at amortized cost, financial assets mandatorily measured at FVTOCI, lease receivables, contract assets arising from IFRS 15 "Revenue from Contracts with Customers", certain written loan commitments and financial guarantee contracts. A loss allowance for the 12-month expected credit losses is required for a financial asset if its credit risk has not increased significantly since initial recognition. A loss allowance for full lifetime expected credit losses is required for a financial asset if its credit risk has increased significantly since initial recognition and is not low. However, a loss allowance for full lifetime expected credit losses is required for trade receivables that do not constitute a financing transaction.

For purchased or originated credit-impaired financial assets, the Group takes into account the expected credit losses on initial recognition in calculating the credit-adjusted effective interest rate. Subsequently, any changes in expected losses are recognized as a loss allowance with a corresponding gain or loss recognized in profit or loss.

b. Amendment to IAS 36 “Recoverable Amount Disclosures for Non-financial Assets”

The amendment clarifies that the recoverable amount of an asset or a cash-generating unit is disclosed only when an impairment loss on the asset has been recognized or reversed during the period. Furthermore, if the recoverable amount of an item of property, plant and equipment for which impairment loss has been recognized or reversed is fair value less costs of disposal, the Group is required to disclose the fair value hierarchy. If the fair value measurements are categorized within (Level 2/Level 3), the valuation technique and key assumptions used to measure the fair value are disclosed. The discount rate used is disclosed if such fair value less costs of disposal is measured by using present value technique.

c. IFRIC 21 “Levies”

IFRIC 21 provides guidance on when to recognize a liability for a levy imposed by a government. It addresses the accounting for a liability whose timing and amount is certain and the accounting for a provision whose timing or amount is not certain. The Group accrues related liability when the transaction or activity that triggers the payment of the levy occurs. Therefore, if the obligating event occurs over a period of time (such as generation of revenue over a period of time), the liability is recognized progressively. If an obligation to pay a levy is triggered upon reaching a minimum threshold (such as a minimum amount of revenue or sales generated), the liability is recognized when that minimum threshold is reached.

d. Annual Improvements to IFRSs: 2010-2012 Cycle

Several standards including IFRS 2 “Share-based Payment”, IFRS 3 “Business Combinations” and IFRS 8 “Operating Segments” were amended in this annual improvement.

The amended IFRS 2 changes the definitions of “vesting condition” and “market condition” and adds definitions for “performance condition” and “service condition”. The amendment clarifies that a performance target can be based on the operations (i.e. a non-market condition) of the Group or another entity in the same group or the market price of the equity instruments of the Group or another entity in the same group (i.e. a market condition); that a performance target can relate either to the performance of the Group as a whole or to some part of it (e.g. a division); and that the period for achieving a performance condition must not extend beyond the end of the related service period. In addition, a share market index target is not a performance condition because it not only reflects the performance of the Group, but also of other entities outside the Group.

IFRS 3 was amended to clarify that contingent consideration should be measured at fair value, irrespective of whether the contingent consideration is a financial instrument within the scope of IFRS 9 or IAS 39. Changes in fair value should be recognized in profit or loss.

The amended IFRS 8 requires an entity to disclose the judgments made by management in applying the aggregation criteria to operating segments, including a description of the operating segments aggregated and the economic indicators assessed in determining whether the operating segments have “similar economic characteristics”. The amendment also clarifies that a reconciliation of the total of the reportable segments’ assets to the entity’s assets should only be provided if the segments’ assets are regularly provided to the chief operating decision-maker.

IFRS 13 was amended to clarify that the issuance of IFRS 13 did not remove the ability to measure short-term receivables and payables with no stated interest rate at their invoice amounts without discounting, if the effect of not discounting is immaterial.

IAS 24 was amended to clarify that a management entity providing key management personnel services to the Group is a related party of the Group. Consequently, the Group is required to disclose as related party transactions the amounts incurred for the service paid or payable to the management entity for the provision of key management personnel services. However, disclosure of the components of such compensation is not required.

e. Annual Improvements to IFRSs: 2011-2013 Cycle

Several standards, including IFRS 3 and IFRS 13, were amended in this annual improvement.

IFRS 3 was amended to clarify that IFRS 3 does not apply to the accounting for the formation of all types of joint arrangements in the financial statements of the joint arrangement itself.

The scope in IFRS 13 of the portfolio exception for measuring the fair value of a group of financial assets and financial liabilities on a net basis was amended to clarify that it includes all contracts that are within the scope of, and accounted for in accordance with, IAS 39 or IFRS 9, even if those contracts do not meet the definitions of financial assets or financial liabilities within IAS 32.

f. Amendments to IAS 16 and IAS 38 “Clarification of Acceptable Methods of Depreciation and Amortization”

The entity should use appropriate depreciation and amortization method to reflect the pattern in which the future economic benefits of the property, plant and equipment and intangible asset are expected to be consumed by the entity.

The amended IAS 16 “Property, Plant and Equipment” requires that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate. The amended standard does not provide any exception from this requirement.

The amended IAS 38 “Intangible Assets” requires that there is a rebuttable presumption that an amortization method that is based on revenue that is generated by an activity that includes the use of an intangible asset is not appropriate. This presumption can be overcome only in the following limited circumstances:

- 1) In which the intangible asset is expressed as a measure of revenue (for example, the contract that specifies the entity’s use of the intangible asset will expire upon achievement of a revenue threshold); or
- 2) When it can be demonstrated that revenue and the consumption of the economic benefits of the intangible asset are highly correlated.

An entity should apply the aforementioned amendments prospectively for annual periods beginning on or after the effective date.

g. IFRS 15 “Revenue from Contracts with Customers” and related amendment

IFRS 15 establishes principles for recognizing revenue that apply to all contracts with customers, and will supersede IAS 18 “Revenue”, IAS 11 “Construction Contracts” and a number of revenue-related interpretations from January 1, 2017.

When applying IFRS 15, an entity shall recognize revenue by applying the following steps:

- Identify the contract with the customer;
- Identify the performance obligations in the contract;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations in the contract; and

- Recognize revenue when the entity satisfies a performance obligation.

In identifying performance obligations, IFRS 15 and related amendment require that a good or service is distinct if it is capable of being distinct (for example, the Group regularly sells it separately) and the promise to transfer it is distinct within the context of the contract (i.e. the nature of the promise in the contract is to transfer each of those goods or services individually rather than to transfer combined items).

When IFRS 15 and related amendment are effective, an entity may elect to apply this Standard either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying this Standard recognized at the date of initial application.

- h. Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets between an Investor and its Associate or Joint Venture”

The amendments stipulated that, when an entity sells or contributes assets that constitute a business (as defined in IFRS 3) to an associate or joint venture, the gain or loss resulting from the transaction is recognized in full. Also, when an entity loses control of a subsidiary that contains a business but retains significant influence or joint control, the gain or loss resulting from the transaction is recognized in full.

Conversely, when an entity sells or contributes assets that do not constitute a business to an associate, the gain or loss resulting from the transaction is recognized only to the extent of the unrelated investors’ interest in the associate, i.e. the entity’s share of the gain or loss is eliminated. Also, when an entity loses control of a subsidiary that does not contain a business but retains significant influence in an associate, the gain or loss resulting from the transaction is recognized only to the extent of the unrelated investors’ interest in the associate, i.e. the entity’s share of the gain or loss is eliminated.

- i. IFRS 16 “Leases”

IFRS 16 sets out the accounting standards for leases that will supersede IAS 17 and a number of related interpretations.

Under IFRS 16, if the Group is a lessee, it shall recognize right-of-use assets and lease liabilities for all leases on the consolidated balance sheets except for low-value and short-term leases. The Group may elect to apply the accounting method similar to the accounting for operating lease under IAS 17 to the low-value and short-term leases. On the consolidated statements of comprehensive income, the Group should present the depreciation expense charged on the right-of-use asset separately from interest expense accrued on the lease liability; interest is computed by using effective interest method. On the consolidated statements of cash flows, cash payments for the principal portion of the lease liability are classified within financing activities; cash payments for interest portion are classified within operating activities.

The application of IFRS 16 is not expected to have a material impact on the accounting of the Group as lessor.

When IFRS 16 becomes effective, the Group may elect to apply this Standard either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of the initial application of this Standard recognized at the date of initial application.

j. Amendments to IAS 12 “Recognition of Deferred Tax Assets for Unrealized Losses”

In determining whether to recognize a deferred tax asset, the Group should assess a deductible temporary difference in combination with all of its other deductible temporary differences, unless the tax law restricts the utilization of losses to deduction against income of a specific type, in which case, a deductible temporary difference is assessed in combination only with other deductible temporary differences of the appropriate type. The amendment also stipulates that, when determining whether to recognize a deferred tax asset, the estimate of probable future taxable profit may include some of the Group’s assets for more than their carrying amount if there is sufficient evidence that it is probable that the Group will achieve this, and that the estimate for future taxable profit should exclude tax deductions resulting from the reversal of deductible temporary differences.

Except for the above impact, as of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing the possible impact that the application of other standards and interpretations will have on the Group’s financial position and financial performance, and will disclose the relevant impact when the assessment is completed.

#### **4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

a. Statement of compliance

These interim consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 “Interim Financial Reporting” as endorsed by the FSC. Disclosure information included in these interim consolidated financial statements is less than the disclosure information required in a complete set of annual financial statements.

b. Basis of consolidation

Refer to Note 12, Table 8 and Table 10 for detailed information of subsidiaries (included the percentage of ownership and main business).

c. Other significant accounting policies

Except for the following, the accounting policies applied in these consolidated financial statements are consistent with those applied in the consolidated financial statements for the year ended December 31, 2015. For the summary of other significant accounting policies, please refer to the consolidated financial statements for the year ended December 31, 2015.

1) Retirement benefits

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant plan amendments, settlements, or other significant one-off events.

2) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period’s pre-tax income the tax rate that would be applicable to expected total annual earnings.

## 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

(Concluded)

The Company entered into forward exchange contracts during the three months ended March 31, 2016 and 2015 to manage exposures due to exchange rate fluctuations of foreign-currency denominated assets and liabilities. The Company's financial hedging strategy is to minimize risks due to market price fluctuations and cash flows; however, because these contracts did not meet the criteria for hedge effectiveness, they were not subject to hedge accounting.

### Accounts Receivable

The average credit period on sales of goods was from 30 to 90 days. In determining the recoverability of an accounts receivable, the Group considered any change in the credit quality of the accounts receivable since the date credit was initially granted to the end of the reporting period. The Group recognized an allowance for impairment loss of 100% against all receivables over 1 year because historical experience had been that receivables that are past due beyond 1 year were not recoverable. Allowance for impairment loss were recognized against accounts receivable between 90 days and 1 year based on estimated irrecoverable amounts determined by reference to past default experience of the counterparties and an analysis of their current financial position.

For the accounts receivable balances that were past due at the end of the reporting period, the Group did not recognize an allowance for impairment loss, because there was not a significant change in credit quality and the amounts were still considered recoverable. The Group did not hold any collateral or other credit enhancements for these balances.

The aging of receivables was as follows:

	<b>March 31, 2016</b>	<b>December 31, 2015</b>	<b>March 31, 2015</b>
Not overdue	\$ 4,656,766	\$ 4,457,975	\$ 4,057,768

	<u>\$ 5,654,091</u>	<u>\$ 5,587,555</u>	<u>\$ 5,378,887</u>

- 1) Such capital surplus may be used to offset a deficit; in addition, when the Company has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital (limited to a certain percentage of the Company's capital surplus and once a year).
- 2) Such capital surplus arises from the effect of changes in ownership interest in a subsidiary resulted from equity transactions other than actual disposal or acquisition, or from changes in capital surplus of subsidiaries accounted for by using equity method.

c. Retained earnings and dividend policy

Under the Company's Articles of Incorporation, if the Company has earnings for the year, it should primarily make taxation payments, offset any past years' deficits and then make appropriations for its legal reserve at 10% of annual net income. In addition, a special reserve should be appropriated or reversed as needed, adding cumulative retained earnings from previous periods and retaining partially, retained earnings for corporate growth. The remainder of the income should be appropriated in the following order:

- 1) 1% to 20% as bonus to employees;
- 2) 1% or less as remuneration to directors and supervisors; and
- 3) Dividends, as proposed by the board of directors.

Recipients of stock bonuses may include subsidiaries' employees who meet the criteria set by the Company's board of directors.

The Company operates in an industry related to computers, and its business related to network servers is new but with significant potential for growth. Thus, in formulating its dividend policy, the Company takes into account the overall business and industry conditions and trends, its objective of enhancing the shareholders' long-term interests, and the sustainability of the Company's growth. The policy also requires that stock dividends be less than 75% of total dividends to retain internally generated cash within the Company to finance future capital expenditures and working capital requirements.

Any appropriations from earnings should be recorded in the year of shareholders' approval, following the year the earnings were generated.

In accordance with the amendments to the Company Act in May 2015, the recipients of dividends and bonuses are limited to shareholders and do not include employees. The consequential amendments to the Company's Articles of Incorporation had been proposed by the Company's board of directors on November 12, 2015 and are subject to the resolution of the shareholders in their meeting to be held on May 25, 2016. For information about the accrual basis of the employees' compensation and remuneration to directors and supervisors and the actual appropriations, please refer to c. Employee benefits expense in Note 21.

Appropriation of earnings to legal reserve should be made until the legal reserve equals the Company's paid-in capital. Legal reserve may be used to offset deficit. If the Company has no deficit and Legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

Under Rule No. 1010012865 and Rule No. 1010047490 issued by the FSC and the directive titled "Questions and Answers for Special Reserves Appropriated Following Adoption of IFRSs", the Company should appropriate or reverse to a special reserve.

Except for non-ROC resident shareholders, all shareholders receiving the dividends are allowed a tax credit equal to their proportionate share of the income tax paid by the Company.

The appropriation of earnings, for 2015 and 2014 have been proposed by the board of directors on March 4, 2016 and approved in the shareholders' meetings on May 28, 2015, respectively, were as follows:

	<b>Appropriation of Earnings</b>		<b>Dividends Per Share</b>

The existing Articles of Incorporation of the Company stipulates the distribution of bonus to employees at rates no less than 1% and no higher than 20%, and remuneration to directors and supervisors at a rate no higher than 1%, of net income (net of the bonus and remuneration). For the three months ended March 31, 2015, the bonus to employees and the remuneration to directors and supervisors were \$32,000 thousand and \$3,000 thousand, respectively (recognized as other payables).

To be in compliance with the Company Act as amended in May 2015, the proposed amended Articles of Incorporation of the Company stipulate the distribution of employees' compensation at rates no less than 1% and no higher than 20%, and remuneration to directors and supervisors at a rate no higher than 1%, of net profit before income tax, employees' compensation, and remuneration to directors and supervisors. For the three months ended March 31, 2016, the employees' compensation and the remuneration to directors and supervisors were \$50,000 thousand and \$3,000 thousand, respectively, of the base net income.

If there is a change in the proposed amounts after the annual consolidated financial statements are authorized for issue, the differences are recorded as a change in accounting estimate.

The appropriations of employees' compensation and remuneration to directors and supervisors for 2015 having been resolved by the board of directors on March 4, 2016, and the appropriations of bonus to employees and remuneration to directors and supervisors for 2014 having been approved in the shareholders' meetings on May 28, 2015, respectively, were stated as below. The employees' compensation and remuneration to directors and supervisors for 2015 are subject to the resolution of the amendments to the Company's Articles of Incorporation for adoption by the shareholders in their meeting to be held on May 25, 2016, and in addition thereto a report of such distribution shall be submitted to the shareholders' meeting.

### d. Income tax assessments

The Company's tax returns through 2010 have been assessed by the tax authorities. The Company disagreed with the tax authorities' assessment of its 2008 and 2009 tax returns and applied for reexamination. Nevertheless, to be conservative, the Company provided for the income tax assessed by the tax authorities.

## 23. EARNINGS PER SHARE

Unit: NT\$ Per Share

	For the Three Months Ended March 31	
	2016	2015
Basic earnings per share	<u>\$ 2.08</u>	<u>\$ 1.91</u>
Diluted earnings per share	<u>\$ 2.07</u>	<u>\$ 1.91</u>

The earnings and weighted average number of ordinary shares outstanding in the computation of earnings per share were as follows:

### Net Profit for the Period

	For the Three Months Ended March 31	
	2016	2015
Earnings used in the computation of basic earnings per share	<u>\$ 1,311,915</u>	<u>\$ 1,206,870</u>
Earnings used in the computation of diluted earnings per share	<u>\$ 1,311,915</u>	<u>\$ 1,206,870</u>

### Weighted Average Number of Ordinary Shares Outstanding (In Thousand Shares)

	For the Three Months Ended March 31	
	2016	2015
Weighted average number of ordinary shares in computation of basic earnings per share	631,853	631,341
Effect of potentially dilutive ordinary shares:

Employees' compensation	<u>808</u>	<u>680</u>
Weighted average number of ordinary shares used in the computation of diluted earnings per share	<u>632,661</u>	<u>632,981</u>

If the Group offered to settle bonuses paid to employees in cash or shares, the Group assumes the entire amount of the compensation would be settled in shares and the resulting potential shares will be included in the weighted average number of shares outstanding used in the computation of diluted earnings per share, if the effect is dilutive. Such dilutive effect of the potential shares was included in the computation of diluted earnings per share until the number of shares to be distributed to employees is resolved in the following year.

## 24. SHARE-BASED PAYMENT ARRANGEMENTS

Qualified employees of the Company and its subsidiaries were granted 5,000 options in August 2014 and 3,000 options in July 2010. Each option entitles the holder to subscribe for one thousand common shares of the Company. The holders of these shares include employees whom meet certain criteria set by the Company, from both domestic and overseas subsidiaries in which the Company directly or indirectly invests over 50%. Options issued on August 2014 and July 2010 are valid for six and five years, respectively. All are exercisable at certain percentages after the second anniversary year from the grant date. Options granted in 2010 had an exercise price equal to the closing price of the Company's common

shares listed on the grant date, and the exercise price of those granted in 2014 was NT\$100 per share. For any subsequent changes in the Company's paid-in capital, the exercise price and the number of options will be adjusted accordingly.

No employee share options were issued for the three months ended March 31, 2016 and 2015. Information on employee share options was as follows:

	<b>For the Three Months Ended March 31</b>

## 25. BUSINESS COMBINATION

### a. Subsidiary acquired

	<b>Principal Activity</b>	<b>Date of Acquisition</b>	<b>Proportion of Voting Equity Interests Acquired (%)</b>	<b>Consideration Transferred</b>
B+B SmartWorx, Inc. (Note)	Sale of industrial network communications	January 4, 2016	100	<u>\$ 3,296,048</u>

Note: For more information of B+B and its subsidiaries IMC, Quatech, BBI, BBE, Conel and Softcon, please refer to Note 12, Table 8 and Table 10.

To expand its global brand market in industrial network communications, the Company made arrangements to acquire 100% equity in B+B SmartWorx Inc. (B+B) from Graham Partners. The Group will expand its Industrial Connectivity product portfolio and increase its global market share by leveraging B+B SmartWorx' branding and sales channels in the U.S., Europe, and the Middle East.

### b. Considerations transferred

	<b>B+B</b>
Cash	<u>\$ 3,296,048</u> (US\$ 99,850 thousand)

On January 4, 2016, the Group acquired 100% share equity of B+B and its subsidiaries from Graham Partners. The Company and ANA obtained 60% and 40% share equity of B+B, respectively.

Acquisition-related costs amounting to \$33,476 thousand were excluded from the consideration transferred and were recognized as current expenses under administrative expenses in the consolidated statement of comprehensive income.

### c. Assets acquired and liabilities assumed at the date of acquisition

	<b>B+B</b>
Current assets	
Trade receivables	\$ 211,332
Inventories	301,938
Other current financial assets	33,010
Other current assets	30,446
Non-current assets

Intangible assets	416,365
Deferred tax assets	35,125
Current liabilities	
Trade and other payables	(135,526)
Non-current liabilities	
Other liabilities	(10,730)
Deferred tax liabilities	<u>(30,126)</u>
	<u>\$ 984,867</u>

The initial accounting for the acquisition of B+B Limited had only been provisionally determined at the end of the reporting period. The tax bases for B+B's assets were required to be reset on the basis of the market values of the assets. At the date of finalization of these consolidated financial statements, the necessary market valuations and other calculations had not been completed and they were thus only provisionally determined on the basis of management's best estimate of the likely tax values.

d. Goodwill arising on acquisition

	<b>B+B</b>
Consideration transferred	\$ 3,296,048
Less: Fair value of identifiable net assets acquired	<u>(984,867)</u>
Goodwill arising on acquisition	<u>\$ 2,311,181</u>

Goodwill arose from the acquisition of B+B because the cost of the combination included a control premium. In addition, the consideration paid for the combination effectively included amounts in relation to the benefit of expected synergies, revenue growth, future market development and the assembled workforce of B+B. These benefits were not recognized separately from goodwill because they did not meet the recognition criteria for identifiable intangible assets.

Part amount of acquisition goodwill that was expected to be deductible for tax purposes would be amortized over 10 years.

e. Net cash outflow on acquisition of subsidiaries

	<b>B+B</b>
Consideration paid in cash	\$ 3,296,048
Less: Prepayments for investments	<u>(2,279,881)</u>
	<u>\$ 1,016,167</u>

f. Impact of acquisitions on the results of the Group

The results of the acquirees since the acquisition date included in the consolidated statements of comprehensive income were as follows:

	<b>B+B</b>
Revenue	<u>\$ 413,819</u>
Loss	<u>\$ (43,603)</u>

## 26. EQUITY TRANSACTIONS WITH NON-CONTROLLING INTERESTS

- a. In the first quarter of 2015, the Group subscribed for an additional 3,028 thousand shares of AdvanPOS, increasing the Group's equity interest from 69.47% to 82.85%. In the second and third quarters of 2015, the Group subscribed for an additional 3,505 thousand shares more of AdvanPOS, increasing the Group's equity interest from 82.85% to 100%.
- b. In the first quarter of 2016, the Group acquired 0.07% equity in ALNC, increasing the Group's equity interest from 89.93% to 90%.
- c. In the first quarter of 2016, the Group acquired 40% equity in Hanzhou Advantofine Automation Co., Ltd., increasing the Group's equity interest from 60% to 100%.

The above transactions were accounted for as equity transactions, since the Group did not cease to have control over these subsidiaries.

3) Valuation techniques and inputs applied for the purpose of measuring Level 2 fair value measurement

Derivatives held by the Group were foreign currency forward contracts, whose fair values were calculated using discounted cash flow. Future cash flows are estimated based on observable forward exchange rates at the end of the reporting period and contract forward rates, discounted at a rate that reflects the credit risk of various counterparties.

4) Valuation techniques and inputs applied for the purpose of measuring Level 3 fair value measurement

The fair values of investment products denominated in CNY were using income approach. In this approach, the discounted cash flow method was used to capture the present value of the expected future economic benefits to be derived from the ownership of these investees. Had the inputs to the valuation model been changed to reflect reasonably possible alternative assumptions and had all the other variables been held constant, the fair value of the shares would have increased/decreased.

b. Categories of financial instruments

Note 1: The balance included the carrying amount of held-for-trading financial assets measured at cost.

Note 2: The balances included loans and receivables measured at amortized cost, which comprise cash and cash equivalents, debt investments with no active market - current, notes receivable, accounts receivable, other receivables (including those from related parties) and other current financial assets.

Note 3: The balances included financial liabilities measured at amortized cost, which comprise short-term borrowings, trade and other payables and long-term payables.

c. Financial risk management objectives and policies

The Group's major financial instruments included equity investments, trade receivables, trade payables and borrowings. The Group's Corporate Treasury function provides services to the business, coordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk, and liquidity risk.

The Group sought to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives was governed by the Group's policies approved by the board of directors, which provided written principles on foreign exchange risk, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments, and the investment of excess liquidity. Compliance with policies and exposure limits was reviewed by the internal auditors on a continuous basis. The Group did not enter into trade financial instrument including derivative instruments for speculative purposes.

The Corporate Treasury function reported quarterly to the board of directors on the Group's current derivative instrument management.

1) Market risk

The Group's activities expose it primarily to financial risks of changes in foreign currency exchange rates (see (a) below) and interest rates (see (b) below). The Group entered into a variety of derivative financial instruments to manage its exposure to foreign currency risk and interest rate risk.

There had been no change to the Group's exposure to market risks or the manner in which these risks were managed and measured.

a) Foreign currency risk

The Group had foreign currency sales and purchases, which exposed it to foreign currency risk. The Group manages the risk that fluctuations in foreign currency could have on foreign-currency denominated assets and future cash flow by entering into a variety of derivative financial instruments, which allow the Group to mitigate but not fully eliminate the effect.

The maturities of the Company's forward contracts were less than six months. These forward exchange contracts did not meet the criteria for hedge accounting.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities (including those eliminated on consolidation) are set out in Note 31. As for the carrying amounts of derivatives exposing to foreign currency risk at the end of the reporting period, refer to Note 7.

Sensitivity analysis

The Group was mainly exposed to the U.S. dollar, Euro and Renminbi.

The following table details the Group's sensitivity to a 5% increase in New Taiwan dollars (the functional currency) against the relevant foreign currencies. 5% is the sensitivity rate is used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis included only outstanding foreign currency denominated monetary items and foreign currency forward contracts designated as cash flow hedges, and adjusts their translation at the end of the reporting period for a 5% change in exchange foreign currency rates. A positive number below indicates an increase in pre-tax profit and other equity associated with New Taiwan dollars strengthen 5% against the relevant currency. For a 5% weakening of the New Taiwan dollar against the relevant currency, there would be an equal and opposite impact on pre-tax profit and other equity and the balances below would be negative.

	<u>U.S. Dollar Impact</u>		<u>Euro Impact</u>		<u>Renminbi Impact</u>	
	<u>For the Three Months</u>		<u>For the Three Months</u>		<u>For the Three Months</u>

Note 1: This was mainly attributable to the exposure outstanding on U.S. dollars denominated cash, trade receivables, and trade payables, which were not hedged at the end of the reporting period.

Note 2: This was mainly attributable to the exposure outstanding on Euro denominated cash, trade receivables, and trade payables, which were not hedged at the end of the reporting period.

Note 3: This was mainly attributable to the exposure outstanding on Renminbi denominated cash, trade receivables and trade payables, which were not hedged at the end of the reporting period.

b) Interest rate risk

The Group's floating-rate bank savings are exposed to risk of changes in interest rates. The Group's management monitors fluctuations in market interest rates regularly to ensure that interest rate risks are minimized.

The Group's fixed-term bank deposits are exposed to fair value interest rate risk; however, this expected risk is insignificant.

The carrying amount of the Groups financial assets and financial liabilities with exposure to interest rates at the end of the reporting period were as follows:

	<b>March 31, 2016</b>	<b>December 31, 2016</b>	<b>March 31, 2016</b>
Fair value interest rate risk			
Financial assets	\$ 264,951	\$ 152,279	\$ 708,582
Financial liabilities	-	60,000	123,016
Cash flow interest rate risk			
Financial assets	3,625,195	2,817,236	3,177,307
Financial liabilities	482,775	820,625	-

Sensitivity analysis

The sensitivity analyses below were determined based on the Group's exposure to interest rates for non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis was prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease was used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher and all other variables were held constant, the Group's pre-tax profit for the three months ended March 31, 2016 and 2015 would have increased by \$3,928 thousand and \$3,972 thousand, respectively. Had interest rates been 50 basis points lower, the effects on the Group's pre-tax profit would have been of the same amounts but negative. The source of the negative effects would have been mainly the floating-interest rates on bank savings.

c) Other price risk

The Group was exposed to equity price risk through its investments in listed equity securities and open-end mutual funds. The Group manages this exposure by maintaining a portfolio of investments with different risks. The Group's equity price risk was mainly concentrated on open-end mutual funds and equity instruments trading in the Taiwan Stock Exchange.

Sensitivity analysis

The sensitivity analyses below were determined based on the exposure to equity price risks at the end of the reporting period.

If equity prices had been 1% higher, pre-tax profits for the three months ended March 31, 2016 and 2015 would have increased by \$1,793 thousand and \$1,760 thousand, respectively, as a result of the changes in fair value of held-for-trading investments and the pre-tax other comprehensive income for the three months ended March 31, 2016 and 2015 would have increased by \$36,559 thousand and \$56,804 thousand, respectively, as a result of changes in fair value of available-for-sale investments. Had equity prices been 1% lower, the effects on pre-tax other comprehensive gains would have been of the same amounts but negative.

## 2) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. As at the end of the reporting period, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties arises from the carrying amount of the respective recognized financial assets, as stated in the balance sheets.

In order to minimize credit risk, the management of the Group has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate allowance are made for irrecoverable amounts. In this regard, the management of the Group believes the Group's credit risk was significantly reduced.

Trade receivables consisted of a large number of customers, spread across diverse industries and geographical areas and, thus, no concentration of credit risk was observed.

## 3) Liquidity risk

The Group manages liquidity risk by monitoring and maintaining a level of cash and cash equivalents deemed adequate to finance the Group's operations and mitigate the effects of fluctuations in cash flows. In addition, management monitors the utilization of bank borrowings and ensures compliance with loan covenants.

The Group relies on bank borrowings as a significant source of liquidity. As of March 31, 2016, December 31, 2015 and March 31, 2015, the Group had available unutilized short-term bank loan facilities set out in (c) below.

Ultimate responsibility for liquidity risk management rests with the board of directors, which has built an appropriate liquidity risk management framework for the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves and continuously monitoring forecast and actual cash flows as well as matching the maturity profiles of financial assets and liabilities.

### a) Liquidity and interest risk rate tables for non-derivative financial liabilities

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables had been drawn up based on the undiscounted cash flows of financial liabilities from the earliest date on which the Group can be required to pay. The tables included both interest and principal cash flows. Specifically, bank loans with a repayment on demand clause were included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities were based on agreed repayment dates.

For the liabilities with floating interests, the undiscounted amounts were derived from the interest rate curve at the end of the reporting period.

## 29. ASSETS PLEDGED AS COLLATERAL OR FOR SECURITY

- As of March 31, 2015, the Company pledged time deposits of \$18,650 thousand for bank guarantees for the Company's purchases.
- As of March 31, 2016, B+B had pledged time deposits of \$112,527 thousand to get bank guarantees in line for the Company's merger transaction.

## 30. SIGNIFICANT COMMITMENTS

In addition to those disclosed in other notes, significant commitments and contingencies of the Group as of March 31, 2016 were as follows.

### Significant Commitments

As of March 31, 2016, December 31, 2015 and March 31, 2015, the Company had a construction contract amounting to \$1,627,500 thousand for a newly constructed science park located in Linkou in Taoyuan City. The remaining payables were \$450,131 thousand, \$701,927 thousand and \$1,338,430 thousand, respectively.

On March 22, 2016, the Company's board of directors approved the establishment of "AIMobile Co., Ltd." by a joint investment with Inventec Corporation. The final capital contributions of "AIMobile Co., Ltd." are estimated to NT\$1,000 million which will be separated to several capital injection stages. The Company and Inventec will hold equity interests of 45% and 55%, respectively and capital injection to set up of "AIMobile Co., Ltd." will be NT\$300 million.

The primary operation of AIMobile Co. Ltd. is design and manufacture of industrial mobile systems.

### 31. SIGNIFICANT ASSETS AND LIABILITIES DENOMINATED IN FOREIGN CURRENCIES
